# Start using Remote Assist mobile

# Smartphone to AR glass

## Benefits AR remote support (smartphone - smartphone, smartphone - AR glas):

- Provision of real-time and remote assistance (synchronous and indirect communication)
- Step-by-step guidance e. g. for transfer of technical knowledge (and recording sessions for learning video purpose)
- Focus: practical or lab environment (classroom with lesser benefits)
- Conditions: Wifi, Remote Assist subscription
- Scenarios: maintenance and repair in industry, working steps assistance in craftsmanship
